The registrations increased in the younger playing categories, however, they dropped in adult categories. Minor players increased by eighty-two (82) players and junior numbers increased by forty-eight (48). Senior players dropped by thirty-five (35) and masters by nine (9). There was a drop of seven (7) managers/coaches/officials. Overall there were fifty-nine (59) more registered people than last year.

I believe the increase at the minor and junior levels are very positive signs.

Submitted respectfully,
